Global IOT Sim Product Matrix

	Data4Life	Micro 30	Micro 50	Micro 100
Monthly Allocation MB	10MB	30MB	50MB	100MB
Term (Years)	30	5	3	2
Total data pool for term	3.6GB	1.8GB	1.8GB	2.4GB
Max usage from pool in any given month *	150MB	180MB	300MB	600MB
**Max usage in a single year ** **	300MB	360MB	600MB	1.2GB
Term if max usage used every year (years)	10	5	3	2
Max Top-up p/m	190MB	170MB	150MB	100MB
Number of countries	105			
Number of networks	230			
Non-steering (Multi-network)	Yes			
Top-up available	Yes			
Sms available	Yes			
Top-up Data Cost 100MB	$2			
20 SMS Bundle cost	$2			
Top-up data validity (months)	12			
Sms bundle validity (months)	12			

Notes:

* This is the total data allowed to be used in a single given **month** without the data usage being capped. Please note that the annual Max usage still applies. This is not intended as an indication of how the data should be used but rather as an absolute maximum allowed. Should you run out of data in a given month you can re-connect your package using top-up data.

** This is the total data allowed to be used in a single **year** without the data usage being capped. This is not intended as an indication of how the data should be used but rather as an absolute maximum allowed. Should you run out of data in a given year you can re-connect your package using top-up data.
